

Lead Wizard Trade Show Compatibility 2012

Instructions: Please check for system/badge compatibility before each show. In the exhibitors kit/manual find the lead retrieval order form. Cross reference the company name with the name below. If listed in the **"Green"** that means the Lead Wizard system can read the badges at that show if listed in **"Red"** then the system will not read the badges for that show. Some registration companies offer multiple badge types - thus if the box is marked under **Mag (magstripe card), Bar (barcode badge)**. If a registration company is not listed or if you have questions please call (877) 279-2105 or send a email to info@leadwizard.com.
